

# Isle and Innovation

Isle is a strategic innovation consultancy that brings together technical and commercial specialists to **develop and execute innovation frameworks**. This includes the generation, evaluation and execution of opportunities.

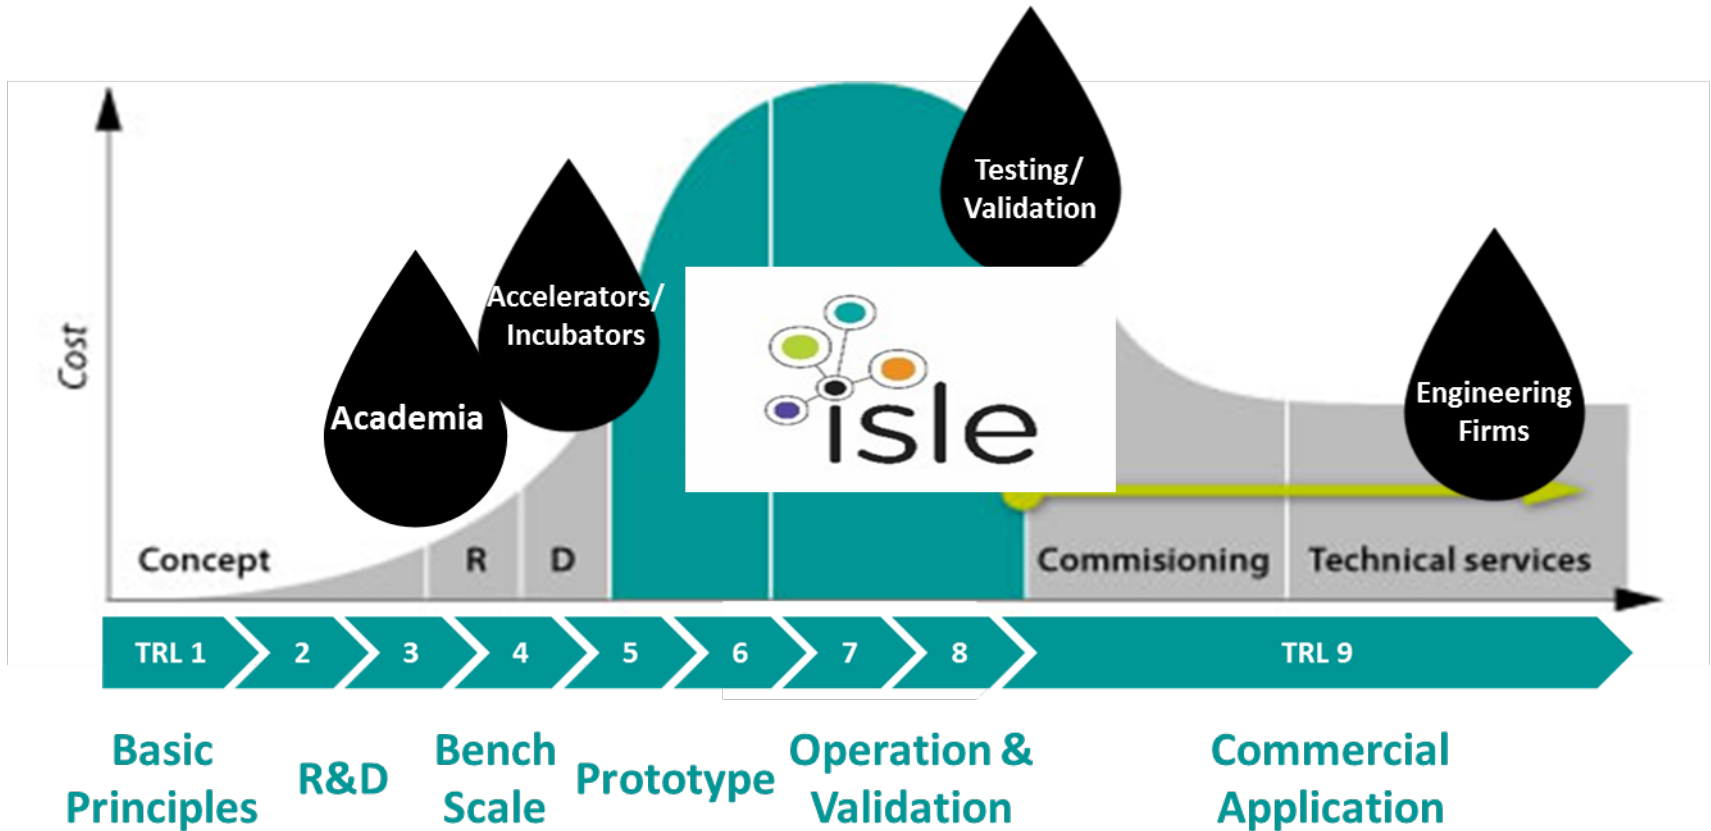

# 47 Subscribing US TAG Members in FY16

# Technology Innovation Ecosystem

TAG Sweet Spot = Pre-commercialization & Early Commercialization Stages

Membership orgs and associations are other stakeholders in the space but with a broader objective, technology is a smaller piece of their main interests
